## Harlow Conservation Volunteers

### Additional Opportunities

**Tuesdays and Saturday mornings – Parndon Wood  
(please check for dates)**

Timber preparation work for the boardwalk at Parndon Moat Marsh                      Andrew

### Task Information

Tasks start at 10.00am. Morning only tasks finish around 1.00pm; others finish at about 3 – 3.30pm. Everybody is welcome and your help will be valued for whatever time you can spare. No previous experience is necessary. Instruction will be given in use of tools, techniques, and safe working practice.

**Note:** those under 18 years of age must be accompanied by an adult who will be responsible for them at all times.

#### What to bring

You'll need strong footwear – preferably work boots (with protected toe caps) or walking boots, or wellingtons for wet sites – old (warm) clothes, and waterproofs. Sun protection is advisable (even in winter).

We provide tools and personal protective equipment (PPE), but you are welcome to bring your own loppers, bow-saws, work gloves etc. if you have them. We provide tea and coffee, drinking water, and hand-washing facilities, but please bring your own mug and packed lunch.

#### Health and Insurance

Insurance cover is arranged for the group on task. An up-to-date anti-Tetanus injection is strongly advised for most outdoor activities. If you think you may not be covered on this or are concerned about any other health issues, you should consult your GP.
